The listing of a contractor does not imply endorsement by the Seneca County Soil and Water Conservation District or the USDA Natural Resources Conservation Service. It is no longer a requirement for contractors to be insured to be included on this listing. It is and always will be the District's position that recommendations as to contractors to retain are at the discretion of the landowner; the District does not make recommendations, just provides the list of contractors as a convenience to landowners.

It is the landowner's responsibility to inquire as to insurance, references, and any other information that the landowner feels necessary in making a contract.
